

Access-Ability, supplier of accessibility ...

The Unwin Removable Wheelchair Seat Locker USL is a device that locks the seat legs into a vehicle's floor tracking. Its main purpose is to add **flexibility** to a vehicle's seating configuration. A simple step on the actuator locks the seat into the tracking.

This seating system can be used in conjunction with any rail with scallops at one inch (25.4mm) centre to centre .

Characteristics:

- ✔ Easy to use, safe and rattle free grip in one single motion and without adjustments.
- ✔ Integral safety release catch to stop accidental release of the seat.
- ✔ The built-in wheel makes moving heavy seats around quick and easy.
- ✔ The locker is self-locating so finding the correct position inside the track is easy.
- ✔ The new lockable fits any rail with scallops at one inch (25.4mm) centre to centre .
- ✔ Helps you cut time adapting your vehicle, so you can be back on the road in no time.
- ✔ One of the most versatile lockers in the market. The fixing point design yields the strongest bond, yet the lockable is flexible enough to fit any seat manufacture.
- ✔ The sleek and discreet profile blends in well with the interior. Available in black and grey.
- ✔ 3 years warranty

OPTION : transport wheels for moving seats easily when out from the vehicle.

The Unwin Seat Locker has been successfully tested to ECE Regulation 14 and EC 76/115 as amended to M1.
