

Carony 16 wheelchair system

The **Carony 16** is a **wheelchair system** that lets you **transfer from wheelchair to car seat without lifting**. It offers **comfort** and **security** to the user.

The seat is the mobile part of the Carony that slides by carrying the user between the wheelbase and the swivel base. It offers several functions to ensure **good posture** and **relieve the pressure**.

The **Carony 16 system** has rear handles with brake and includes the possibility to raise the front of the seat and tilt the folder. It's as safe and comfortable as a standard car seat and it's as versatile and easy to use as a transport wheelchair.

Carony 16 main features

- Weight capacity: **120 kg**
- High quality 16" wheels with reflective stripes
- Suitable for people of all sizes, including small people and children
- **A single seat for the wheelchair and the vehicle**
- **Integrated push handles with brake**
- **Many comfort options and ergonomic functions**
- **Adjustable armrests**
- **Supports for the torso and thighs**
- **Integrated pneumatic pocket** which allows to **raise the cushion** to improve the comfort of the seat
- Improved stability
- Metal frame, gray color, black seat
- **Elegant design**
